## RE: Extension in Validity – KFS Field of Application Report SFS/17180/01 Revision A

Dear Sir/Madam,

Kiwa Fire Safety Compliance (KFS) Field of Application Report SFS/17180/01 Revision A for the SecureSound FD30 door type, has expired.

KFS are not currently able to issue a revalidated version of this Field of Application Report as additional time is required to undertake an in-depth evaluation of the relevant fire test evidence/technical data and make amendments to the approved scope.

This letter is issued to confirm KFS have extended the validity of Field of Application Report SFS/17180/01 Revision A, enabling door assemblies to be manufactured and installed under the scope of this Field of Application Report until 5<sup>th</sup> September 2024. Whilst this letter does not constitute an assessment, it is issued to provide assurance that it is the intent of KFS to revalidate the above referenced Field of Application Report on, or before, the 5<sup>th</sup> September 2024.

We trust this letter is of assistance at this time. Should you have any questions, please do not hesitate to contact the undersigned.

Yours Sincerely,

**Stephen Childs**  
Senior Fire Safety Engineer  
Kiwa Fire Safety Compliance.  
(Part of the Kiwa UK Group)

**David Cooper**
